

Evergreen Montessori School
Presents:

MONTESSORI MATH AND THE DEVELOPING BRAIN

Michael Duffy

Montessori educator and teacher trainer for over 20 years, and author of Math Works: Montessori Math and the Developing Brain.

Join us for two exciting events!

Evening Lecture

For Montessori Parents and Educators

Friday, February 20, 7:00-8:30pm

Free to Evergreen Families

Fee: \$15

Montessori math is so different from our own math experience that parents often wonder if their child is learning what they should. This evening lecture is designed to provide parents with an understanding of the rationale behind the method, and its goal of the development of a true mathematical mind for your child.

One-Day Seminar

For Montessori Educators

Saturday, February 21, 9am-3pm

Fee: \$80

Explore the Montessori math and geometry curriculum directly with materials and at all levels to gain a deeper understanding of the entire math scope and sequence. Time will be spent exploring the math philosophy, its benefits for the psyche and brain of the child, and how it stacks up to standards. Pre-registration is required for this seminar.

Call (301) 942-5979 or email info@evergreenschool.com to reserve your space now!
